

top tips & tools for mobile optimisation

Description

Touch Elements:

Make sure the touch elements are not too close to avoid users mis-clicking

Font Size:

Make sure your font size is not too small, we recommend to use a base font size of 16 CSS pixels.

Google Webmaster Tool:

This is a free tool offered by Google that helps you monitor and maintain your site's presence in Google Search result. [Click here](#) for Google Webmaster Tool.

Google PageSpeed Insights:

This free tool offered by Google will analyse the content of a web page, then generates suggestions to make that page faster. [Click here](#) for PageSpeed Insights.
