

Ask your customers to keep paying you during business closure

Description

Are you the type of business that provides a regular service to your customers such as a hairdresser or beautician? Don't you think your customers will want you to survive temporary closure until the Coronavirus Pandemic ends?

How do you ask them for money if they are not coming into your salon or you cannot visit them at home?

Place a payment option on your website and ask them to pay online to make a small donation every month until this situation is over.
