

Yell Website Vs Wix Website - Price Comparison

Description

Now that Yell use the Wix platform, it is interesting to compare the cost of getting a website from Yell to going to Wix directly. Without going into too much detail, we compare the 10GB websites offered on both platforms. Sorry, I should say - offered by both companies - because since 2021 they both use the same platform. <https://about.yell.com/media-centre/yell-wix-announce-partnership-offering-smart-website-technology-to-smes>

There is clearly a large markup by Yell for the Wix platform. A 10Gb is offered at £5.50 from Wix directly. This likely increases to £11 after a year.

A Yell website on the same Wix Platform will cost you £36 a month. Compared to Wix (£11 a month) that is over 3 times the cost!
