

Web Design

Description

We provide low cost, corporate websites for small to medium size businesses. We operate like a member of your team to create a customised digital marketing strategy. Playing an active role in delivering this strategy with as much technical and creative resource as required. Or digital involvement is dependent on your internal resource and time availability. Full Content Management Support and Training can be remote or in-house, depending on location, desk space and broadband connection.

WordPress websites are designed and built from Â£1000 up to Â£10000, depending on complexity and amount of content.

We appreciate that many business websites don't require the flexibility and optional functionality that WordPress has to offer so we offer a budget website package. This is not to say it still doesn't perform well. Our Delta Digital Website is still super fast on all devices and looks great on mobile phones with click to dial buttons and Google maps to direct customers to your shop or showroom. You still get security with assigned SSL Certificate to make it HTTPS. You can also edit the content yourself and you will receive a 1 hour remote training session on how to do this. If you need it, you get a free email address to match your domain.

Delta Digital AI Website Build â?? From only Â£600.

These little AI beauties are very popular with the trade. We have, plumbers, electricians, joiners and garage mechanics snapping them up and saving a small fortune compared to what they were paying for a Yell website. Sometimes there can be a little extra work in the transition of domain and email but we take care of all of that so you can get on with doing what you do best. All we need is up to 20 images and 700 words of text describing your business. Watch the video below to find out more about the tools used. Once your new website is fully loaded, ask about our business card offer to promote your new website.

Approved by Trading Standards

Delta Digital Ltd. is approved by Trading Standards as part of the Trusted Trader Scheme. Our new customers are familiar with this Scheme and some are also registered on Trusted Trader. We felt it would give all our new customers peace of mind. [See our Listed Page on Trusted Trader >>](#)
